

# **VDA'S DATA COLLECTION APP (DCA)**

## **IT'S MORE THAN AN APP—ITS VDA'S COMMITMENT TO EXCELLENCE**

VDA's Data Collection App (DCA) is proprietary technology that ensures a thorough and detailed evaluation of vertical transportation equipment, while leading the way in delivering intelligent reporting to our clients. Our comprehensive, objective approach provides vertical transportation equipment owners and associated service contractors with specific and appropriate information to enhance the equipment's safety, reliability and overall efficiency.

## **THE FEATURES**

DCA's features include:

- Detailed equipment profiles
- Thorough maintained condition analysis
- Deficiencies in code-related items
- Recorded operating performance
- Life cycle analysis (optional)
- Comprehensive Capital Planning Expenditure Summary (optional)
- Deficiency photos and details
