## Business Application Suppliers and Services

### MyWorkDrive

MyWorkDrive provides a software-only, on-premise solution for secure remote file access from anywhere for any device. Users gain access in minutes without sync, VPN, RDP, or migrating data. MyWorkDrive allows secure file sharing without the risks of cloud storage or migrating files to unproven sync and share systems. In just minutes, you can activate a web client portal for secure file sharing, branded with your company logo, color scheme, and URL. Access to files is based on Active Directory security and NTFS permissions out of the box. Instantly enable secure File Sharing with remote access to Windows File Shares. Should you wish, additional security features can be easily activated including Data Loss Prevention and Two Factor Authentication.

### OpenGov

OpenGov's mission is to power a more effective government by building an easy-to-use, modern cloud solution built specifically for the public sector. Our budgeting and planning solution allows you to easily collaborate across your organization to create your budget book, gather citizen feedback, and quickly perform workforce planning. Our Operational Performance solution provides dynamic dashboards with detailed drilldowns allowing you to share complex financial information with ease. The Citizen engagement solution provides 2-way conversations with your constituents through online surveys and automated townhalls. All three solutions are built on an open data Smart Platform that aggregates all of your disparate data sources across your organization to provide a single source of truth. This comprehensive cloud solution enables agencies to easily track progress, make more informed decisions, and drive better outcomes.

## Business Application Suppliers and Services

### Outsystems

OutSystems is a modern application platform that simplifies every stage of the app development and delivery process. Developers and teams can provide apps the business requires at the speed the market demands. Development teams design, develop, QA and analyze and manage their apps, no matter the size. All front-end and back-end development needs are covered. It also handles deployment and long-term maintenance. No one has to piece together separate tools, which can add cost and reduce productivity. And, we offer governance and impact analysis so big projects can get even bigger without requiring additional coding or management.

### PublicInput

PublicInput helps you increase public engagement and communication with your community, while reducing your workload burdens with an integrated solution.

### Red Rover

Red Rover has been built from the customer-first perspective, delivering on the features that education professionals yearn for – an easy-to-use, adaptive, and delightful experience that grows with any school district, flexible and customizable to what educators tell us they need. With Red Rover, administrators can assess staffing needs, teachers/other full-time staff can declare time off, and substitutes can connect with openings tailored to their skill sets. Although our service is rooted in technology, our people are our most valued asset. Our culture of trust and transparency allows us to adapt to evolving client needs more effectively and helps create meaningful, enduring relationships.

## Business Application Suppliers and Services

### SOMA Global

SOMA Global is on a mission to connect the world of public safety with the technology they deserve. Today, partners leverage their critical-response ecosystem bringing a new era of transformation to the public safety domain, allowing agencies to rapidly solve technology challenges without lengthy development times, the need for teams of engineers, or costly budgets. SOMA Global is empowering public safety innovation through pre-built application suites, data interoperability, and solutions toolkits.

### Spare Labs

Spare, a Vancouver-based startup, is on a mission to help accelerate the global shift to autonomous vehicles by enabling anyone to create and manage a smart transportation network in seconds. With Spare Platform, Spare's core product, anyone can plan, launch, operate, and analyze a smart transportation network, all from one place.

### Swiftly

Swiftly is a single platform to unify your public transit data. Swiftly's products combine to form a single, powerful platform that centers your transit agency on the industry's most accurate data. Swiftly's cloud infrastructure and subscription model simplify how agencies build their transit data stack. Agencies may choose only the products they need, access them from anywhere and use them with the hardware of their choice.

### ThirdLine

ThirdLine was founded by former city and county internal audit analysts and data scientists, along with public accounting professionals. ThirdLine integrates with municipal ERP systems and combines the power of 400 analytics across 10 modules to expedite audits, monitor operations, and find fraud, waste, and abuse.

## Business Application Suppliers and Services

### Trintech

Trintech Inc. is a leading global provider of cloud-based, integrated reconciliation and financial close solutions for Finance & Accounting departments. From high volume transaction matching, to automating and managing balance sheet reconciliations, intercompany accounting, journal entries, close management tasks, to governance, risk and compliance -- Trintech's portfolio of financial solutions, including its Cadency® Platform (for large enterprises) and Adra® Suite (for mid-market organizations), help manage all aspects of the reconciliation and financial close processes.

### Udacity

Udacity is a global, online training platform powering digital transformation and accelerated time-to-market initiatives for Fortune 500 and Global 2000 enterprises. Udacity programs provide industry-created practitioner skills through a series of "Nanodegree" programs consisting of online courses and real-world projects in artificial intelligence, machine learning, data science, autonomous systems, and cloud computing, among other disciplines.

### UKG

UKG's purpose is people. As strong believers in the power of culture and belonging as the secret to success, we champion great workplaces and build lifelong partnerships with our customers to show what's possible when businesses invest in their people. One of the world's leading HCM cloud companies today, UKG and our Life-work Technology approach to HR, payroll, and workforce management solutions for all people helps more than 75,000 organizations around the globe and across every industry anticipate and adapt to their employees' needs beyond just work.

## Business Application Suppliers and Services

### Visual Lease

Visual Lease is the #1 lease optimization software provider. We help organizations become compliant with FASB, IFRS and GASB lease accounting standards, while simultaneously improving the financial, legal and operational performance of their leases. Our easy-to-use SaaS platform is embedded with more than three decades of best practices from major corporations and leading industry professionals. Our award-winning solutions are used by 800+ organizations to manage 500,000+ real estate, equipment and other leased assets. Committed to ongoing innovation and unparalleled customer service, Visual Lease helps organizations transform their lease compliance requirements into financial opportunities.

### Workiva

Workiva (NYSE:WK) delivers Wdesk, an intuitive cloud platform that modernizes how people work within thousands of organizations worldwide. Wdesk offers controlled collaboration, data integration, granular permissions, and a full audit trail. Wdesk helps mitigate risk, improves productivity, and gives users confidence in data-driven decisions. Wdesk provides proven solutions for financial reporting, internal controls management (OMB A-123), audit management and risk management. Wdesk's word processing, spreadsheet and presentation applications are integrated and built upon a data management engine, offering synchronized data, controlled collaboration, granular permissions and a full audit trail. Wdesk enables coworkers to create, review and publish data-linked documents and reports with control, accuracy and productivity. With Wdesk data linking, changes are automatically updated in all linked instances, including numbers, text, charts and graphics throughout a customer's spreadsheets, word-processing documents and presentation decks in the Wdesk platform.

### Worldgate

Worldgate partners with government and educational institutions, delivering innovative technology solutions to empower their mission. As a certified UKG Partner, Worldgate implements UKG's suite of Human Resource products to help our customers maximize their workforce investments.

## Business Application Suppliers and Services

### Zendesk

Zendesk unlocks the power of everyday customer interactions. That power gives businesses what they need to create gold-standard customer experiences that are connected, personalized, and rich. The products Zendesk makes and the industry it serves are technical and complex, so our work must be simple and clear. Zendesk focuses on what's important, and that attentiveness keeps our brand consistent. Everything Zendesk makes must work together to deliver a straightforward, meaningful experience.
