Enhance your conferencing quality and productivity with a state-of-the-art, easy-to-use and fully supported conferencing solution.

For any space

We offer Flex as a Service packages that support small meeting spaces and larger conference rooms for up to 30 people

24/7 world-class support

Advance replacement and 24/7 live, on-demand support are just a phone call or click away

Simple collaboration

Collaborate on your preferred platform and bring out the best in your meetings. Simply join the meeting in Teams or Zoom to share content, video and audio.

Easy to budget

Monthly subscription pricing per room — improve cash flow with a 3-year OpEx model and extend or upgrade at the end of the term

Remote monitoring

Login to your account and access your dashboard to review your subscriptions, view room status, availability, and issue help tickets

Secure

We provide enterprise-grade solutions that are ideally equipped for any corporate, education, healthcare, or government facility

Dedicated Subscription Services Team

Wesco's subscription services team will make your Conference Room as a Service experience everything you would expect.

We provide:

- The hardware and service subscription with advance replacement and 24/7 live support
- Web portal for monitoring device availability and support tickets
- Kitting of each conference room solution
- Logistics management in coordination with your AV integrator
- Display DOA and pixel testing
- Firmware updates prior to shipment

Your Conference Room as a Service Subscription has You Covered

It is essential to keep your meetings running smoothly. That's why each conference device has a QR code. Your team can scan the code to connect with on-demand, live support, 24/7.

24/7 world-class support

24/7 live, dedicated support is just a call or click away.

Cloud support

With your permission, our support team can access your touchscreen and walk you through any issue.

Advance replacement

Having a hardware issue? We will send a replacement component to you right away.

Remote monitoring

Log into your account online and access your convenient dashboard to check system use and request support tickets remotely.

† The optional displays recommended by Wesco are compatible with your Crestron Flex system and may be included in your Conference Room as a Service monthly subscription payment. Additional costs apply. To select an alternative display, please note that it is recommended that the display supports "Wake on Sync" and "Sleep on No Sync" functionality. Consult with your Wesco representative before making a selection.

* A dedicated Microsoft Teams® Rooms or Zoom Rooms™ (Standard or Premium) license is required for each room. License sold separately. Not included with your Conference Room as a Service subscription.

Visit WescoConferenceRooms.com to learn more.

BYOD

Select your preferred application* —

Flex as a Service packages are available in Microsoft Teams® Rooms or Zoom Rooms™ versions. Easily share content and collaborate from any device joined on your meeting. There's no need for dongles, special software, mobile apps, or separate network sign-in. Simply sign into the meeting and collaborate.

More flexibility — If you haven't standardized on a platform, or want flexibility for guests, consider adding Bring Your Own Device (BYOD) to your package. With BYOD, guests can collaborate on the platform of their choice. The ability to plug in a laptop and connect to the room technology makes sharing content with those in the room or working remotely, easy and reliable.

* A dedicated Microsoft Teams® Rooms or Zoom Rooms™ (Standard or Premium) license is required for each room. License sold separately. Not included with your Conference Room as a Service subscription.
