Expertise to Support Your Security and Safety K-12 Needs

A key priority for school districts is to provide students, teachers and administration with a safe and secure environment. We understand education facilities contain complex areas that require special attention and integration in an overall risk management strategy. Our dedicated education team and security experts can help support you with comprehensive solutions and perform site-specific security assessments. Wesco is a Fortune® 500 global supply chain solutions distributor focused on the K-12 market to serve your needs.

School Safety Best Practices

Wesco's dedicated security team is active in industry associations enabling us to stay informed on the latest trends and best practices in the education environment. In addition, our security experts understand and can help you navigate the Partner Alliance for Safer Schools' (PASS) comprehensive guidelines to secure your school.

Focus Areas

Wesco can help you secure the most critical areas on campus:

- School exterior
- Building entrance
- Administration
- Information technology office
- Hallways
- Classroom
- Common areas

Defense in Depth Approach

As an active member of the American Society for Industrial Security (ASIS), Wesco is part of a global community of security professionals with the goal to protect people, property and information.

Defense in Depth (5D) is a strategic approach utilized in a number of mission-critical environments. Understanding and employing this approach on your campus allows you to respond to each stage of a threat and mitigate serious harm.

It is Important to:

- Deter:** To prevent an event from occurring
- Detect:** To quickly identify a threat
- Deny:** To refuse access for unauthorized personnel
- Delay:** To slow, contain and isolate the threat
- Defend:** To allow for an active response
