Our products will help protect facilities across the U.S. long after the dust of the pandemic has settled.

## Company Vision

Our organizational vision is to become the 'go to' provider of UV-C Infection Prevention technology in B2B and B2G markets in the U.S. This will be achieved by offering an unrivaled UV-C technology portfolio, and creating an expert UV-C culture that designs solutions tailored to client needs and the facilities in which they operate.

Broadly speaking, there are three vectors of infection transmission: Water, Surface and Air. UV Medical operates in the Surface and Air UV-C technology space, and our growing portfolio of innovative technology will greatly benefit NCPA customers across the country.

## **Competitors**

UV Medical's point of differentiation is the depth and breadth of the growing portfolio of innovative UV-C solutions we market. UV Medical currently represents eight manufacturers; that number will grow to fifteen by the end of June.

The UV-C sector is a manufacturer dominated space. Typically, manufacturers in this market only have one product or proposition. By means of example, in the fully autonomous UV-C robot market, there are only two products available: UVD Robots of Denmark, and our Rover UV, manufactured in Pittsburgh, PA. Both are capital equipment items and cost approx \$100K. When a prospective client cannot afford \$100K for a UV-C robot, UVD Robots have nowhere to pivot with an alternative solution. The same cannot be said of UV Medical.

This same single product provider situation exists among virtually all manufacturers servicing the UV-C market: Xenex, UV Concepts and Surfacide, to name a few. There is no single 'silver bullet' UV-C product that will tackle Air and Surface infection prevention; clients need to plug and play different solutions for different environments. We believe that is what makes the UV Medical portfolio so compelling, and what differentiates us from other providers in the U.S. market.

## **Marketing the NCPA contract**

In order to effectively launch the NCPA contract, an internal company-wide launch event will be held to ensure that all Regional Managers, Operations, Customer Service, and Finance personnel are familiar with the scope and reach of the contract vehicle.

Regional Managers will be tasked with executing a launch plan to all State and Federal Govt. prospects, and the contract will be integrated into UV Medical digital marketing platforms. It will be launched as a campaign through all email, newsletters and social media platforms (such as LinkedIn). Each month, the UV Medical digital marketing platforms touch over 10,000 State & Federal Govt. personnel across Education, Healthcare, First Responder, and Military markets. The NCPA contract will be integrated into these efforts.

## **E-Commerce**

Our branded website - [www.uvmedical.us](http://www.uvmedical.us) - already offers full e-commerce functionality across our portfolio. A dedicated login will be created for NCPA contract purchasing entities. Product will be sold on free shipping FOB terms. A live transactional e-dashboard can be provided to the NCPA for management and monitoring of the contract performance. Customers can make purchases using credit cards or access our portfolio on our standard 30 day net terms.

## **Green Initiatives**

Med Solutions is proud to support efforts that minimize our carbon footprint. We actively encourage our team to act responsibly and have a number of environmental company policies in place. These include a 'non flight' policy and a 'non print' policy. Med Solutions is a 100% electronic communication business, and hasn't printed an invoice, brochure or product sales sheet since our formation in 2020.

*Contractor agrees to include the requirements of this clause in each subcontract financed in whole or in part with Federal assistance provided by FTA, modified only if necessary to identify the affected parties.*

### **DISADVANTAGED BUSINESS PARTICIPATION**

This Contract is subject to the requirements of Title 49, Code of Federal Regulations, Part 26, "*Participation by Disadvantaged Business Enterprises in Department of Transportation Financial Assistance Programs*", therefore, it is the policy of the Department of Transportation (DOT) to ensure that Disadvantaged Business Enterprises (DBEs), as defined in 49 CFR Part 26, have an equal opportunity to receive and participate in the performance of DOT-assisted contracts.

- 1) Non-Discrimination Assurances. Contractor or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this Contract. Contractor shall carry out all applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by Contractor to carry out these requirements is a material breach of this Contract, which may result in the termination of this Contract or other such remedy as public agency deems appropriate. Each subcontract Contractor signs with a subcontractor must include the assurance in this paragraph. (See 49 CFR 26.13(b)).

- 2) Prompt Payment. Contractor is required to pay each subcontractor performing Work under this prime Contract for satisfactory performance of that work no later than thirty (30) days after Contractor's receipt of payment for that Work from public agency. In addition, Contractor is required to return any retainage payments to those subcontractors within thirty (30) days after the subcontractor's work related to this Contract is satisfactorily completed and any liens have been secured. Any delay or postponement of payment from the above time frames may occur only for good cause following written approval of public agency. This clause applies to both DBE and non-DBE subcontractors. Contractor must promptly notify public agency whenever a DBE subcontractor performing Work related to this Contract is terminated or fails to complete its Work, and must make good faith efforts to engage another DBE subcontractor to perform at least the same amount of work. Contractor may not terminate any DBE subcontractor and perform that Work through its own forces, or those of an affiliate, without prior written consent of public agency.
- 3) DBE Program. In connection with the performance of this Contract, Contractor will cooperate with public agency in meeting its commitments and goals to ensure that DBEs shall have the maximum practicable opportunity to compete for subcontract work, regardless of whether a contract goal is set for this Contract. Contractor agrees to use good faith efforts to carry out a policy in the award of its subcontracts, agent agreements, and procurement contracts which will, to the fullest extent, utilize DBEs consistent with the efficient performance of the Contract.

### **ENERGY CONSERVATION REQUIREMENTS**

Contractor agrees to comply with mandatory standards and policies relating to energy efficiency which are contained in the State energy conservation plans issued under the Energy Policy and Conservation Act, as amended, 42 U.S.C. Sections 6321 *et seq.* and 41 CFR Part 301-10.

### **FEDERAL CHANGES**

Contractor shall at all times comply with all applicable FTA regulations, policies, procedures and directives, including without limitation those listed directly or by reference in the Contract between public agency and the FTA, as they may be amended or promulgated from time to time during the term of this contract. Contractor's failure to so comply shall constitute a material breach of this Contract.

### **INCORPORATION OF FEDERAL TRANSIT ADMINISTRATION (FTA) TERMS**

The provisions include, in part, certain Standard Terms and Conditions required by the U.S. Department of Transportation (DOT), whether or not expressly set forth in the preceding Contract provisions. All contractual provisions required by the DOT, as set forth in the most current FTA Circular 4220.1F, dated November 1, 2008, are hereby incorporated by reference. Anything to the contrary herein notwithstanding, all FTA mandated terms shall be deemed to control in the event of a conflict with other provisions contained in this Contract. Contractor agrees not to perform any act, fail to perform any act, or refuse to comply with any public agency requests that would cause public agency to be in violation of the FTA terms and conditions.

### **NO FEDERAL GOVERNMENT OBLIGATIONS TO THIRD PARTIES**

Agency and Contractor acknowledge and agree that, absent the Federal Government's express written consent and notwithstanding any concurrence by the Federal Government in or approval of the solicitation or award of the underlying Contract, the Federal Government is not a party to this Contract and shall not be subject to any obligations or liabilities to agency, Contractor, or any other party (whether or not a party to that contract) pertaining to any matter resulting from the underlying Contract.

*Contractor agrees to include the above clause in each subcontract financed in whole or in part with federal assistance provided by the FTA. It is further agreed that the clause shall not be modified, except to identify the subcontractor who will be subject to its provisions.*

#### **PROGRAM FRAUD AND FALSE OR FRAUDULENT STATEMENTS**

Contractor acknowledges that the provisions of the Program Fraud Civil Remedies Act of 1986, as amended, 31 U.S.C. §§ 3801 et seq. and U.S. DOT regulations, "Program Fraud Civil Remedies," 49 CFR Part 31, apply to its actions pertaining to this Contract. Upon execution of the underlying Contract, Contractor certifies or affirms the truthfulness and accuracy of any statement it has made, it makes, it may make, or causes to be made, pertaining to the underlying Contract or the FTA assisted project for which this Contract Work is being performed.

In addition to other penalties that may be applicable, Contractor further acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification, the Federal Government reserves the right to impose the penalties of the Program Fraud Civil Remedies Act of 1986 on Contractor to the extent the Federal Government deems appropriate.

Contractor also acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification to the Federal Government under a contract connected with a project that is financed in whole or in part with Federal assistance originally awarded by FTA under the authority of 49 U.S.C. § 5307, the Government reserves the right to impose the penalties of 18 U.S.C. § 1001 and 49 U.S.C. § 5307 (n)(1) on the Contractor, to the extent the Federal Government deems appropriate.

*Contractor agrees to include the above clauses in each subcontract financed in whole or in part with Federal assistance provided by FTA. It is further agreed that the clauses shall not be modified, except to identify the subcontractor who will be subject to the provisions.*
